

# Seedup Company Profile

Seed to Harvest. Farm to Market. Global Reach

[www.seedupinc.com](http://www.seedupinc.com)

# About Seedup

SeedUp is an agricultural company operating across two core lines of business: healthy, organic, fresh, and frozen fruits and vegetables for local markets and export, and hydroponic leafy greens for local distribution with a select group of experts and specialists in the agricultural field!

# Company Overview

SeedUp is an agricultural company engaged in the supply of fresh and frozen fruits and vegetables for local markets and export, alongside the production of hydroponic leafy greens for local distribution. The company operates across sourcing, controlled cultivation, handling, packaging, and distribution, serving both domestic and international buyers.

Across all operations, SeedUp maintains a consistent focus on product quality, food safety, and reliable supply to meet the requirements of professional customers.

## Core Values

### Customer Focus

We place our customers at the center of everything we do. Our goal is to support our partners by providing reliable supply and consistent products that help them operate efficiently and grow their business.

### Quality

Quality is a responsibility we take seriously. We maintain strict oversight across production, handling, and packaging to ensure our products meet defined quality and food safety standards at every stage.

### Trust

We believe that successful local and international trade is built on trust. We are committed to transparency, reliability, and long-term partnerships based on consistency and accountability.

### Sustainability

We prioritize safe and responsible agricultural practices. Our hydroponic production operates without the use of pesticides or harmful chemicals, supporting a healthier environment.

## Mission

To supply fresh and frozen fruits and vegetables that meet local and export market requirements, while producing hydroponic leafy greens for local food service partners with consistent quality, food safety, and reliable availability.

## Vision

To become a trusted agricultural supply partner by building efficient, transparent, and quality-driven operations that support long-term relationships with local and international customers.
