

Seedup Product Catalog

A Wide Range of Quality Products for Local & Global Markets

www.seedupinc.com

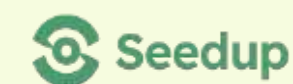

Company Overview

SeedUp is an agricultural company engaged in the supply of fresh and frozen fruits and vegetables for local markets and export, alongside the production of hydroponic leafy greens for local distribution. The company operates across sourcing, controlled cultivation, handling, packaging, and distribution, serving both domestic and international buyers.

Across all operations, SeedUp maintains a consistent focus on product quality, food safety, and reliable supply to meet the requirements of professional customers.

Our Products
